Plot

Aryan Agnihotri is a Delhi-born smart robotics engineer based out of Mumbai, taking after his aunt, Urmila Shukla, who has a company of her own, E-Robotics, in California. She invites him to America, where he eventually meets the Super Intelligent Female Robot Automation alias SIFRA, Urmila's secretary, who looks and behaves like a human, a fact unknown to him. Heartbroken, he returns to India and agrees to an arranged marriage. However, when he realizes his love for SIFRA, he decides to sneak out of the engagement ceremony and is caught by his grandfather, who suggests him to follow his heart and assures him that he will handle the family in his absence. Aryan wishes for SIFRA to be in India so that he could introduce her to his family; he calls up his aunt to ask her to send her to India for further "testing" against a traditional Indian family. She agrees for it and sends her to India, where Aryan introduces her as his girlfriend to his family leading to numerous comical situations.

Aryan's family, unaware that she is a robot, agree to their marriage.
