

Teenage Mutant Ninja Turtles: Mutant Mayhem

Teenage Mutant Ninja Turtles: Mutant Mayhem is a 2023 American animated superhero film based on the Teenage Mutant Ninja Turtles characters created by Peter Laird and Kevin Eastman. A reboot of the Turtles film series, it was directed by Jeff Rowe and co-directed by Kyler Spears, from a screenplay and story written by Seth Rogen, Evan Goldberg, and Rowe, with Dan Hernandez and Benji Samit also credited to the former and Brendan O'Brien to the latter. The film stars an ensemble voice cast with Micah Abbey, Shamon Brown Jr., Nicolas Cantu, and Brady Noon as the four Turtles: Donatello, Michelangelo, Leonardo, and Raphael. Mutant Mayhem follows the Turtles, who, in their pursuit of public acceptance, go on a hunt for a mysterious crime boss and face off against him and his gang of mutants.

Plans for an animated Turtles film with involvement by Rogen began in 2018. In June 2020, the project was officially announced, with Rogen, Goldberg, and James Weaver producing through their company, Point Grey Pictures, Rowe as director, and O'Brien as screenwriter. Spears joined soon after as co-director. Seeking to explore the teenage aspect of the Turtles, the filmmakers drew inspiration from teenage coming-of-age films. The majority of the cast was announced in March 2023. The animation was provided by Mikros Animation in Montreal and Paris and Cinesite in Vancouver and Montreal, and was primarily influenced by school notebook sketches. Trent Reznor and Atticus Ross composed the score.

Mutant Mayhem was screened as a work-in-progress at the Annecy International Animation Film Festival on June 12, 2023, and was released by Paramount Pictures in the United States on August 2, 2023. It grossed \$180 million worldwide and received positive reviews for its performances, screenplay, and stylized animation; several critics considered it the best Turtles film. The film received multiple award nominations, including at the Critics' Choice Movie Awards and the Annie Awards.

A follow-up television series, Tales of the Teenage Mutant Ninja Turtles, is set to premiere on Paramount+ in 2024, and a sequel film is set to be released in theaters on October 9, 2026.

Techno Cosmic Research Institute (TCRI) executive Cynthia Utrom sends a squad to hunt down rogue scientist Baxter Stockman, who has created a mutagenic ooze with which he intends to form his own mutant animal family, starting with a housefly. Baxter is interrupted by Cynthia's strike force and killed in the resulting explosion, while the mutagen falls into the sewers of New York City. The mutagen turns four turtle brothers—Michelangelo, Leonardo, Raphael and Donatello—and a rat named Splinter into humanoid mutants, whereupon Splinter adopts the turtles. Splinter distrusts humanity—particularly after one encounter where he and the turtles were chased away—and trains his sons in the art of *ninjutsu*, instructing them to only leave their sewer home to steal supplies. Over the years, the Turtles long to live with and like humans their age, much to Splinter's dismay.

Fifteen years later, the Turtles defeat a gang of criminals to recover a stolen moped belonging to a teenager named April O'Neil, revealing themselves and their origins. April, an aspiring journalist, has been investigating a series of robberies of TCRI technology by a criminal known as "Superfly". The Turtles plan to stop Superfly and, through April's reporting, win public acceptance as heroes. They intercept a piece of stolen technology and meet Superfly under the Brooklyn Bridge, discovering that he is not only a mutant himself, but leader of a mutant gang. Ecstatic to meet fellow mutants, the Turtles bond with Superfly and the others and he reveals their creation at the hands of Stockman, explaining that they evaded TCRI and are living on an abandoned ship in Staten Island. He then reveals that he plans to use the stolen technology to mutate every animal on Earth and create a world where mutants have dominance over humans.

The Turtles try to intervene, but the gang escapes with the equipment while a tracker TCRI installed on the equipment falls back with the Turtles, allowing them to be captured. At TCRI headquarters, Cynthia extracts the Turtles' mutagen, but April arrives with Splinter to rescue them. At the gang's hideout, Splinter and the Turtles convince them that their plan for domination will make them no better than the worst of humanity, and together they turn on Superfly, destroying his machine. However, the ooze falls into the water, combining marine wildlife with Superfly, who then transforms into a gigantic whale-like *kaiju* after grabbing animals from a nearby zoo. He attacks the city and the Turtles and other mutants attempt to stop him but are assumed by the public to be fellow monsters.

Leonardo finds his voice as a leader while April overcomes her anxiety and commandeers a news broadcast to explain the mutants' good intentions and the citizens of New York come to their aid. With the help of the citizens and other mutants, the Turtles drop a canister of TCRI retro-mutagen into Superfly's blowhole, turning him back into a collection of normal animals. Reconciling with Splinter, the Turtles, April, and the mutants are celebrated by the city. The mutants soon move into the sewers with them. Splinter and Scumbag fall in love and the Turtles enroll at April's high school, where they are all embraced as heroes. While the Turtles and April enjoy themselves at prom, they are under surveillance from Cynthia (holding the now unmutated Superfly captive), who plans to recapture the Turtles by enlisting the aid of the mysterious Shredder.

Production

Development

Following Ramsey Naito's appointment at Nickelodeon in 2018, she and Brian Robbins discussed who to bring onto the *Teenage Mutant Ninja Turtles* franchise. Seth Rogen was decided upon, and Jeff Rowe joined the project soon after.^[1] In June 2020, *Deadline Hollywood* reported that Nickelodeon Animation Studio was developing a CG-animated *Turtles* film for Paramount Pictures. Rowe was hired to direct, from

a screenplay by Brendan O'Brien.^[2] Rogen, Evan Goldberg, and James Weaver produced through their production company, Point Grey Pictures, which is credited alongside Nickelodeon Movies.^[3] Naito and Josh Fagen oversaw production for Nickelodeon and Point Grey, respectively.^[2]

Producers Seth Rogen & Evan Goldberg and director Jeff Rowe

In an August 2020 interview with *Collider*, Rogen said that the film would heavily lean into the teenage element of *Turtles*. He stated,^[4]

As a lifelong fan of *Ninja Turtles*, weirdly the 'Teenage' part of *Teenage Mutant Ninja Turtles* was always the part that stuck out to me the most. And as someone who loves teenage movies, and who's made a lot of teenage movies, and who literally got their start in their entire profession by writing a teenage movie, the idea of kind of honing in on that element was really exciting to us. I mean, not disregarding the rest, but really using that as kind of a jumping-off point for the film.

In June 2021, Rogen revealed a teaser image through his Twitter page, which contained school notes written by Leonardo, the film's original release date, and other details.^[5] By October 2021, the film was under the working title *Teenage Mutant Ninja Turtles: The Next Chapter*.^[6] Production designer, Yashar Kassai, elaborated on the project, "You anchor yourself enough in the familiar elements of it so that it is easily recognizable, but then you either add to or enhance some of the existing charm of the franchise."^[6] The title *Teenage Mutant Ninja Turtles: Mutant Mayhem* had been finalized by August 2022.^[7] Kyler Spears joined the film as co-director, signing on because he had worked with Rowe on his prior film, *The Mitchells vs. the Machines* (2021).^{[8][9]} J.J. Villard was commissioned to design the film's logo.^[10] Overall, the budget was \$70 million at minimum.^[11]

Writing

Ultimately, Rogen, Goldberg, and Rowe, along with the writing team of Dan Hernandez and Benji Samit, received screenplay credit, with O'Brien and the former three having "story by" billing.^[12] Rogen and Rowe wanted the film to emphasize the teenage aspect of the Turtles.^[1] Rowe compared *Mutant Mayhem* to the coming-of-age films, *Stand by Me* (1986) and *Lady Bird* (2017) and remarked that his goal was to make "the ultimate teenage coming-of-age film." He described the Turtles as having an "inauthentic confidence that teenagers have", adding that teenagers often "operate with this hyped-up sense of, 'We can do anything!'"^[13]

The writers wanted to create their own version of *Turtles* lore and did not take all elements from previous iterations into account. Rowe explained that they aimed "to make it more logical", and skated past a lot of things "to make it really operate from a place of character and relatability".^[14] Rowe cited his admiration for the classic *Turtles* toys as the reason why a lot of mutant characters were written into the film.^[15] Shredder was originally the main villain of the film, but was written out because Rowe wanted the film's villain to be a mutant who could relate to the Turtles and who the Turtles could relate to and be tempted by.^[16] Superfly was originally going to be a mutated version of Baxter Stockman, a character who has been turned into a mutant fly in past *Turtles* media. The two ultimately wound up being separate characters.^[17]

An early draft of *Mutant Mayhem* was more of a high school film. Rowe explained that with the initial version, it was hard to make the Turtles' lives intersect with the crime villain plot in a natural way, adding that the Turtles had already achieved their goal early on in the script. As a result, the film had to "reset 30 minutes in", and new characters, other kids in the high school, and relationships had to be established. Rowe described it as "tedious." Eventually, in July 2022, Rogen approached Rowe through text message, telling him that the film was "fundamentally broken" and had to be completely changed, a sentiment with which Rowe agreed. Consequentially, in the next four months, the film was completely rewritten and boarded into its final state.^[18]

Casting and voice recording

On March 4, 2023, during the Nickelodeon Kids' Choice Awards, Rogen revealed that actors Micah Abbey, Shamon Brown Jr., Nicolas Cantu, and Brady Noon (all of whom were in attendance) had been cast in the voice roles of the Turtles: Donatello, Michelangelo, Leonardo, and Raphael. Other cast members revealed in their respective roles in the ceremony were Rogen himself, Hannibal Buress, Rose Byrne, John Cena, Jackie Chan, Ice Cube, Natasia Demetriou, Ayo Edebiri, Giancarlo Esposito, Post Malone, Paul Rudd, and Maya Rudolph.^{[19][20]}

Mutant Mayhem marks the first time all four Turtles are portrayed by teenage actors.^[21] Rogen felt that the decision to cast teenagers for the parts in the film, made it stand out from previous versions of *Turtles*, saying "something very intuitive became something that really opened up our version".^[22] Hundreds of actors auditioned for the roles of the Turtles. Rowe watched every tape and narrowed them down to the ones he felt worked. He edited voices into the character designs to see which suited which. After narrowing it down to ten, Abbey, Brown, Cantu, and Noon had a chemistry table read together, with them ultimately landing the roles. Rowe described the four as "perfect", and the table read as "kinetic and alive."^[23] In recruiting Chan, he wrote a letter to him asking if he wanted to be part of a *Turtles* film. The team held a meeting with Ice Cube, who, when told his character's name was Superfly, laughed and agreed to sign on. Ice Cube also chose to sign on because of his and his son's emotional connection with the *Turtles* franchise.^[9]

Abbey drew from the characteristics of his friends and previous portrayals of the character for his performance as Donatello.^[24] Brown did not want to do the typical "surfer dude" voice for Michelangelo during the audition process. Inspired by Brandon Mychal Smith's take on the character in *Rise of the Teenage Mutant Ninja Turtles* (2018–2020), he sought to do his "own thing with it."^[25] Cantu wanted to bring a "quality of nervousness" to Leonardo, feeling that there was a "level of anxiety that comes with leading the group." Noon wanted to balance Raphael's rage with a more lighthearted and funny performance to make him more relatable.^[26] In portraying April O'Neil, Edebiri wanted to hearken back to her teenage years and tap into her character's determination.^[27] *Turtles* co-creator Kevin Eastman appears in a voice cameo as a citizen that helps Splinter during the climax, credited as "Good Human". Rowe wanted the role to be voiced by "someone meaningful to the franchise", and chose to cast Eastman as an homage to Stan Lee's cameos in *Marvel Comics* adaptations until his passing in 2018.^[18] *Scumbag* uses a blend of different voices, including Rowe's, but is ultimately credited to Alex Hirsch.^[28]

In contrast to the norm for animation, the cast recorded their voice roles together in groups rather than independently from one another. A single recording session could include up to seven actors. This environment allowed for the cast to play off each other as well as employ a lot of improvisation in their performances.^[29] Rogen was partly influenced to apply this approach to the film from his experience recording *The Lion King* (2019) with Donald Glover and Billy Eichner.^[30] He directed particular praise towards Abbey, Brown, Cantu, and Noon and said that they tried to "capture the way they actually interacted with each other" in the film. He recalled an account of one recording session with the quartet and how "they would all hang out together in the kitchen of the recording studio, and they would all just talk over each other and make fun of each other; screaming at each other." According to him, the event was what pushed them to start having the four record together, as he felt that the energy was right for the film.^[29]

Design

Like with his previous outing, *The Mitchells vs. the Machines*, Rowe wanted *Mutant Mayhem* to look different from what was expected from an animated film. The director's aim was to make it heavily resemble the concept art.^[31] He was inspired by sketches he made in school notebooks as a teenager and how they tend to have a lot of exaggerated features, spikes, and random effects lines, and wanted the film's animation to reflect a similar feeling.^[32] Rowe described the film's sketch look as its "North Star", as the comic book-inspired look was for *Spider-Man: Into the Spider-Verse* (2018).^[9]

Production designer Yashar Kassai found working out the style of the film one of the most difficult parts of the production. He and Rowe encouraged the artists to embrace their imperfections and draw like teenagers. Kassai cited the 1987 television series and the classic toyline as big inspirations for the production team. "We were looking back to the time when sophomoric gross-out humor was the comedic style of the day. So we started there, but then we added the teenage drawing aspect on top of it as a very strong top layer." He also cited Chungking Express (1994) as a heavy influence on the film's visuals. Since a lot of the film takes place at night, the artists spent a lot of time diversifying what New York looks like at night and giving it a variety of different color schemes.^[33]

Concept art of the Turtles

Rowe and lead character designer Woodrow White pushed for less bulky versions of the Turtles and to have the main four sport more teenage builds. Similar to Michelangelo and his braces, Donatello was given glasses not as a defining trait of geekiness and wisdom but rather as one of adolescence.^[34] With Splinter, White wanted to lean into the dad aspect of the character and have him look disheveled "from the stresses of parenthood." As a ninja master, Splinter wears a kataginu he cut from a bathrobe, which also reflects the DIY nature of the character. Additionally, White gave him sweatpants, which he described as "a common staple of stay-at-home parents." Jeff Bridges's Dude character from The Big Lebowski (1998) served as inspiration for Splinter's fashion, while his build was inspired by Danny DeVito. White also studied photos of actual rats when designing the character.^[34] For Splinter's fighting style, the filmmakers studied his actor, Jackie Chan, in films such as Police Story (1985) and Rumble in the Bronx (1995).^[35]

White did not want to make Leatherhead look too muscular, but rather very much like what an actual alligator would look like if it stood on two legs. He collaborated with Kassai when designing Genghis Frog and based the character's look on that of a pixie frog. Rocksteady was given a larger head to emphasize the character's horn, which White felt was a rhinoceros's defining feature. With Ray Fillet, he wanted to give the character a more "menacing edge" and "inject more manta ray" into him. Similarly, White wanted Wingnut to be more bat-like than previous versions of the character by keeping her wings on her arms.^[34]

Animation and cinematography

Mutant Mayhem was animated by Mikros Animation in Montreal and Paris^[36] and Cinesite in Vancouver and Montreal.^[37] Mikros was hired in 2022 to handle the bulk of the animation, with Cinesite joining soon after to produce nearly 25 minutes.^[38]

Mikros was one of many studios that completed a test shot for the feature. It featured 40 seconds of Donatello talking. The studio was tasked with matching the CGI animation as closely as possible to the 2D reference provided. According to Mikros visual effects supervisor Matthieu Rouxel, Rowe told them, "If the picture looks like a 2D painting when it is not moving, that means we are good". The test helped Mikros realize the need to make specific developments to their rendering for the film: stylized shaders, curves, and edges.^[39]

Mikros built a shader prototype using the toonshader of the Autodesk Arnold render engine as a starter base. While the prototype was good for the test, the team knew they had to develop it further for the scale of a film. Rowe told the studio to avoid a "Photoshop filter feeling". The team realized the sophistication of the look and the need to be able to add graphic features to the lighting, "making it look as if they were painted one after another with different strokes". Mikros worked with Marcel Reinhard—the lead developer of shading, lighting, and rendering—to develop a shader that could isolate lights on the shading of objects and characters and give them special treatments. These treatments included scribbles, cross-hatching, stepping, and color transitions.^[39]

As the film's stylized CGI employs elements of 2D animation to achieve a sketchbook look, Cinesite's staffers, who had only had experience with CGI, had to quickly learn how to use 2D. To speed up the process, they sought out sequences and style guides from Mikros. Additionally, a group of five traditional 2D effects animators to train the team were assembled, and Toon Boom Animation software was brought into their pipeline. Using these resources and tools, Cinesite developed internal animation tests, with regular feedback from Rowe on whether they matched Mikros' work.^[38]

Kent Seki, head of cinematography, wanted to highlight the Turtles' youthfulness by keeping the camera close, handheld, and alive. He described it as being shot like "[you're] on the run" and used teenagers' knack for getting into trouble as inspiration. To capture the Turtles as they engaged in antics both comedic and action, he adopted a cinéma vérité style of filming, shaped by the works of Emmanuel Lubezki and Spike Jonze. Seki also sought to contrast Jonze's handheld style with a more formal camera language influenced by early Paul Thomas Anderson and his cinematographer Robert Elswit's work in *Boogie Nights* (1997).^[34] When shooting scenes, they would alternate between these two different methods to present a dichotomy of the teenage world and the adult world: "So if the kids were being reprimanded by Splinter, [we] would be much steadier with the camerawork, and then when we cut back to the kids, they'd be a little bit more handheld, a little more loose, and those kinds of things started to creep into the cinematography."^[34]

Music

In May 2023, it was announced that the score was composed by Trent Reznor and Atticus Ross, with Gabe Hilfer as music supervisor.^[40] The score album was released by Reznor's label, The Null Corporation on July 28, 2023.^[41] *Mutant Mayhem* features hip-hop music from popular artists, with a heavy emphasis on classic East Coast hip-hop to go with the film's setting.^[42] Many of the songs used in the films were ones that Rogen and Rowe would regularly listen to.^{[43][18]} An official playlist of some songs featured in the film was released on Spotify.^[42]

Themes

Goldberg described the film as overall being about a father, his four sons, and the importance of family.^[33] A major theme in the film is acceptance. The Turtles' isolation from the world is meant to mirror a teenager's desire to fit in, and their father, Splinter, fears the worst in humanity after being rejected by them. The theme was an early part of Rogen and Goldberg's pitch. Rowe felt that it was something that had not been tackled in the franchise before, saying "It acknowledges these fantastical things in a way that grounds them in the real world".^[44] When asked whether the film was written as an immigration fable, Rowe responded that, while that was not the intention, as the story came along, the team started to recognize the parallels between

Splinter and a first-generation parent who moved to the country. According to the director, a lot of the team have had such family situations, and the theme became something they continued to lean on, "so it wasn't the intention, but it became highlighted through execution."^[18]

At the end of the screening, the film received a six-minute standing ovation, with audience and social media reactions reportedly being positive.^[47] The film was shown at the Paramount Pictures studio lot in Los Angeles on July 29, 2023, billed as a "special family screening". The Hollywood Reporter, however, described the event as essentially a premiere, which the cast could not attend due to the ongoing SAG-AFTRA strike.^[48] *Mutant Mayhem* was theatrically released in the United States on August 2, 2023 in Dolby Cinema, 4DX,^[49] and RealD 3D formats.^[50] The film also had several promotional advance screenings before its theatrical release.^[51]

Lauding the film, Justin Chang of the Los Angeles Times called it "an unexpectedly delightful challenge to the critic's reflexive anti-franchise mentality".^[81] Tom Jorgensen of IGN who gave the film an 8 out of 10 rating, spoke positively of it, though criticized the plot for being predictable. He wrote that the film "oozes confidence, energy, and heart" and represents "a new high for the Turtles on the big screen".^[82] Charlotte O'Sullivan of the Evening Standard, who awarded the feature 4 out of 5 stars, praised the portrayal of April O'Neil as well as Edeberi's performance of the character. She said that the film was "peppy, anarchic, doesn't talk down to teens, looks scrumdiddlyumptious, boasts an impeccably laconic soundtrack and gives us April O'Neil as we've never seen her before".^[83] Empire's John Nugent summarized in his 4 out of 5 star rating review: "Inventively animated, giddily funny, and a surprisingly authentic take on the outsider experience: it is virtually impossible not to be charmed by these reptilian bros".^[84]

Film's Rafael Motomayor gave the film a 9 out of 10 rating, saying that it "is not only a great introduction to the iconic franchise, but a fantastic film in its own right, and one of the best-looking movies of the year".^[85] Liz Miller of Consequence, who gave the film an A- grade, commended the use of licensed tracks, writing that the montage set to Blackstreet's "No Diggity" "might be one of the most beautifully animated sequences of the year so far".^[86] Deadline Hollywood's Pete Hammond applauded the screenplay, humor, and performances of Abbey, Brown, Cantu, and Noon. He concluded, "Rogen has made his mark on a franchise that still finds new ways to smartly entertain amid all that mayhem".^[87]

Brian Tallerico of RogerEbert.com, who gave the feature a 2.5 out of 5 star rating, considered the animation a highlight but criticized the story and characterization for lacking depth.^[88] Writing for Variety, Peter Debruge commended the direction but called the screenplay "wildly original in places" but a "recycled glob of tired clichés in others".^[89] The Daily Beast's Nick Schager praised the direction and animation but

largely disliked the film for its humor, use of references, and story. He wrote, "Considering Rogen's participation as both a writer and actor, it's surprising that *Mutant Mayhem* plays it so safe, not merely in terms of plot but with regards to its comedy."^[90]
