They meet investors and appointed Few staff and develop a app where if a person opens the app they will find mom's around 2km will deliver food. Things started to get messed as their Investor runs the company like the way Gaurav was working earlier. The company begins to lose its touch as it fires the main chef (which were the mothers) and hired professionals. The quality started falling and the company lost its customer, then the duo had an argument with the Investor and decided to return his invested amount but they got to know that they have to return money upon company valuation which is 10 crore 50 lakh. With returning the amount only left with 10 lakh decided to give the employee the last salary.

Now the investor has conspired against Gaurav and Mal and they have arrested. In jail they got offer from Arjun's company to sell the company on 30 crore although Mal agreed but Gaurav did not. They had a quarrel and upon getting bailed by vaghela they get separated.

Gaurav again unemployed started looking for a job and Mal also return to his previous job. Then one day his mother gave her Provident Fund & Gratuity to restart the business. Anu aunty had came over to Gaurav's house to tell him that he will once again be failure but Gaurav and his mother shouts at her and asked to leave the house. Gaurav does so and once again become successful. He started making things like previous. He proposed to Devika and also tells that she has to reply before he had a meeting with the Investors as he feels that he always have a doubt if Devika says after a successful meeting.

So next day Devika accepted Gaurav's proposal and investors agreed to Gaurav's clause making him successful both professional and personal. He brings back Mal and repays all their loan. He also makes Arjun jealous by dancing with Devika in front of him.

Meanwhile Anu aunty has announced that his son Arjun has joined Harvard Business School for further studies will now earn in dollars and sent a sweet box to Gaurav's mother but she replies that "Arjun is a just a student and Gaurav is his Teacher". In London Arjun's Class teacher invites Gaurav and Mal as their Special Guest and asked for a speech. They deliver the speech while mocking Arjun.

It explores the contrast between living for oneself and conforming to societal expectations, ultimately questioning whether Gaurav's belief in pursuing his dreams will triumph over society's persistent message of 'You Can't Do It'.
